

SYSTEMS ENGINEERING ADDS DIRECTOR OF SOFTWARE SOLUTIONS

Adam Victor Joins Systems Engineering

Portland, Maine, June 11, 2007 – Systems Engineering, a premier provider of business technology products and services, today announced that Adam Victor has joined the organization as Director of Software Solutions. Victor brings more than 17 years of IT leadership and systems engineering management to the company.

Most recently, Victor managed his own consulting practice providing personal coaching and addressing IT governance issues in the workplace. Previously, he held director positions with Pepperidge Farm and Campbell Soup Company as well as management positions with Wright Express, Clorox Services Company, Ernst and Young LLP and Electronic Data Systems (EDS).

Victor is responsible for leading the Software Solutions Group of Systems Engineering, which provides application implementation expertise, strategic technology consulting and other CIO-for-hire services.

“Adam brings a level of ‘big company’ IT management skills and experience that provides our customers with the C-level guidance that growing Maine businesses need,” said Harry McMann, Founder and President of Systems Engineering. “We are pleased to have Adam join us.”

Victor earned an M.B.A from the University of Southern Maine in 2004 and holds a B.A. from Rutgers University. He lives in Portland with his wife, Brenda, and their three children.

About Systems Engineering

Systems Engineering's experienced staff has provided comprehensive business solutions throughout Northern New England since 1987. Support services range from computer network design, installation, and administration to a full complement of software and business consultation.
